Work Experience

Database Developer Intern - Montgomery County Free Clinic

Crawfordsville, IN. | Sept. 2025 – Dec. 2025

- Built and deployed a secure patient intake and records application system using React, Typescript, and Supabase.
- Designed and managed a relational healthcare database that facilitates data intake and management for the Montgomery County Free Clinic.

Project & Operations Manager - Ramos Lawn Care

Austin, TX. | Jul. 2020 – Present (Seasonal)

- Managed residential landscaping projects for +20 regular clients, overseeing scheduling, invoicing, and customer communication to ensure customer satisfaction.
- Successfully supervised and trained a 4-person crew, ensuring service quality, safety, and teamwork on each project.

Founder & Owner - CutbyOliver

Crawfordsville, IN. | Aug. 2021 - Present

- Built a net client base of 200+ individuals in 3 years through barbering, averaging 20 weekly barbering appointments, as a full-time student through referrals and social media outreach.
- Managed operations (scheduling, communication, equipment investment, finances) while generating steady weekly revenue and gaining exceptional interpersonal skills.

Leadership/Extracurriculars

Various positions - Kappa Sigma Fraternity (Fall 2023 - Fall 2025)

- Led effectively as Rush Lead, House Manager, and Mental Health Chairman while mentoring underclassmen.

Alumni Relations Lead - Wabash Engineering Society (Fall 2024)

- Organized alumni networking and student-industry calls to help foster connections among students and alumni.

Projects:

Montgomery County Free Clinic Digital Intake Form (React.js, Typescript, SQL)

- Built a dynamic site, digitalizing and replacing paper patient intake using React, Typescript, and SQL for the Montgomery County Free Clinic.
- Developed front-end routing, form validation, and API interactions with authenticated access for clinic staff.

Green Valley Storage LCC. Professional Website (Astro, Tailwind CSS)

- Built a static 5-page professional website for Green Valley Storage LCC using Web Development frameworks

Personal Portfolio (Astro, Tailwind CSS, Vercel)

- Built and deployed a static professional portfolio showcasing my work along additional projects.
